

Fresh Fund-Raising Strawberries

Fund raising strawberries will be delivered to your school and to you the next day after they are picked, FRESH! the date will be during late Feb. or march.....still wintertime. stores can't deliver strawberries to you that quickly or that FRESH!

Dear Parents and Friends of Soddy Daisy High School Band,

We are selling fresh strawberries from Plant City, Florida. These are called winter strawberries because we will deliver them to you during the first half of March—still wintertime. Tennessee berries don't get ripe until April or May. The flat weighs 6.5 pounds and sells for \$20. That is \$3.05 per pound and is a good deal because (1) priced same as store berries and (2) fresher and, therefore, better than stores. These are the same berries sold by Allen Elementary school last Feb. and March.

We appreciate your help because our activities are very costly and we need lots of money which doesn't come from school. So, we work for it. Again, \$20—you pay now and we deliver to you in March.
